EXERCISE:

From the above URL,

1. Transform the icons' row into 2 rows and make it occupy only the left half of the page container;
2. Move the "TechDirect" and "MyService360" boxes to the remaining right half of the container;
3. Delete the "Dell EMC Support Technologies" section (where those boxes were initially).

Here is how it should look like after manipulations:
https://github.com/tntdevs/interview-survey/blob/master/img/ex-1.jpg

Code:

```
var child1 = document.getElementById("divResourceLinks");
var child2 = document.getElementById("divEnterpriseProductLinks");

child1.classList.add('col-lg-6');
child1.childNodes[1].childNodes[1].childNodes[1].classList.add('col-lg-6');
child1.childNodes[1].childNodes[1].childNodes[1].classList.remove('mb-lg-0');
child1.childNodes[1].childNodes[1].childNodes[3].classList.add('col-lg-6');
child1.childNodes[1].childNodes[1].childNodes[3].classList.remove('mb-lg-0');
child1.childNodes[1].childNodes[1].childNodes[5].classList.add('col-lg-6');
child1.childNodes[1].childNodes[1].childNodes[5].classList.remove('mb-lg-0');
child1.childNodes[1].childNodes[1].childNodes[7].classList.add('col-lg-6');
child1.childNodes[1].childNodes[1].childNodes[7].classList.remove('mb-lg-0');

child2.classList.add('col-lg-6');
child2.style.marginTop = "50px";
child2.childNodes[1].childNodes[3].childNodes[1].classList.add('col-lg-12');
child2.childNodes[1].childNodes[3].childNodes[3].classList.add('col-lg-12');

var elem = child2.childNodes[1].childNodes[1];
elem.parentNode.removeChild(elem);
var wrapper = document.createElement('div');
wrapper.setAttribute("id", "newParent");
wrapper.classList.add('row');
wrapper.appendChild(child1.cloneNode(true));
```

```
child1.parentNode.replaceChild(wrapper, child1);
wrapper.appendChild(child2 .cloneNode(true));
child2.parentNode.removeChild(child2);
```
